MARMORINO CALSSICO

is a natural lime plaster made from genuine finely filtered aged slaked lime, marble aggregates, quartz sand, natural fillers and selected binders. It has an excellent filling power and a natural resistance to mold and bacteria.

Suitable for Interior and exterior surfaces, Its unique composition allows to create satin and velvet touch surfaces

- Quick and easy application
- Odourless
- Environmentally Green product with zero VOC
- Highly customizable with respect to colours and effects
- Compatible with all paintable substrates
- It supports limited fragmented repair.
- Adaptable in all concepts, classical, modern or fusion.
